Art Unit: 1794

1. **Continuation of Box 3:**

2. The amendment submitted on 01/14/09 is not entered into consideration, because newly amended claim limitation of “thickness of more than 30 μm ” requires further search **and/or** consideration. While it is noted that Applicant has previously presented the thickness in the range of 20 to 80 micrometers in claim 10, however Applicant has now chosen a particular value of the thickness (30 micrometers) in attempt to overcome the prior art of record **after the prosecution is closed**, which raises an issue of further search **and/or** consideration. Accordingly, it is respectfully submitted that the after-final amendment is not entered into consideration.

3. **Continuation of Box 11:**

4. Regarding Applicant’s response submitted on 01/14/09, it is respectfully submitted that said response is not found persuasive because it relies on an amendment that is not entered into consideration.
